 Town of Huntsville, District Municipality of Muskoka

Further to the request of October 10, 2019, please find enclosed a licence to operate a Class A, quarry at the above-mentioned property, hereby completing the transfer from Canadian Aggregates & Sand Mixes Inc. to ICL Management Inc.

It is the responsibility of the new licensee to operate this property in accordance with the *Aggregate Resources Act* (ARA), the regulations, the conditions of the licence, as well as the approved site plan. Please note it is a condition that unlimited tonnes of aggregate can be removed from the site in any calendar year.

An annual production report identifying the quantity of aggregate removed from the site in each month must be submitted to The Ontario Aggregate Resources Corporation (TOARC) by January 31 of each calendar year. If no tonnage has been removed, a “nil” production report must be filed.

Additionally, an annual licence fee based on the number of tonnes of aggregate removed from the site during the previous year, or the minimum fee (whichever is greater) must be submitted to TOARC on or before March 15 of each year. The mailing address for TOARC is:

The enclosed licence replaces the previously issued licence for this property which is now null and void. Copies of the licence will be sent to the offices of the agencies noted below.

Should you have any questions regarding this transfer, the ARA, the conditions of the licence, or the site plan please contact Brent Armstrong, Aggregate Specialist, at brent.armstrong@ontario.ca.
